

BOSS AGRICULTURE

AIR SEEDER RANGE

INDEX

Frame Mounted Air Seeders	5
Trailing Air Seeders	6-7
9,000L Air Seeders	8
12,000L Air Seeders	10
20,000L Air Seeders	12
Air Seeder Accessories and Options	14-17
Gas & Liquid Trailers	18

Australian made Air Seeders that easily fill right to the lids, controlled safely from the ground.

9" Auger with hydraulic lift & swing

Large sight glass in all bins as standard

Hydraulic drive, ISO compatible, variable rate as standard

Hydraulic bin lids operated from the ground

Steep bin design for ease of filling

LED work lights as standard

Market leading access with non-slip steps and catwalk

FMX45 - Frame Mounted Air Seeder

The BOSS FMX45 Air Seeder was developed for our Slimline range of planters. The FMX45 filled the key criteria for Slimline customers of narrow transport width combined with a high performance Air Seeder to suit intensive fodder, pasture and grain cropping. Optional 600L small seeds box available.

The FMX45 retains all of the same features of the bigger Air Seeders, rolled into a compact size!

	Empty Mass	Nominal Capacity	Bin Splits	
4,500L 2m 2-Bin Frame Mount Air Seeder	1,500kg	4,500L	2250L 2250L	1800L 2700L

TRX45 - Trailing Air Seeder

The BOSS TRX45 Air Seeder features narrow transport width combined with a high performance Air Seeder to suit intensive fodder, pasture and grain cropping. It is also perfectly suited to Row Crop applications.

The TRX45 is built on a heavy duty but compact and easy manoeuvring, two wheeled Chassis, it features an adjustable angled drawbar, and can be configured in a wide range of wheel spacings from 2 metres to 4 metres. Optional 600L small seeds box available.

	Empty Mass	Nominal Capacity	Tyre Size	Wheel Spacing	Bin Splits
4,500L 2m 2-Bin Trailing Air Seeder	2,200kg	4,500L	Std 15.5-24	2m	2250L 2250L 1800L 2700L

TRX90 - Trailing Air Seeder

The BOSS TRX90 Air Seeder is a high performance 9,000 litre Air Seeder to suit grain cropping for cereals and pulses. It is also perfectly suited to row crop applications. The TRX90 is built on a heavy duty, easy manoeuvring, two wheeled Chassis, features an adjustable angle drawbar, and can be configured in a wide range of wheel spacings from 2 metres to 4 metres. Optional 450L small seeds box available.

	Empty Mass	Nominal Capacity	Tyre Size	Wheel Spacing	Bin Splits
9,000L 2m 2-Bin Trailing Air Seeder	3,450kg	9,100L	Std 18.4-30 (opt. 23.1x30)	2m	4100L 5000L 4550L 4550L
9,000L 3m 2-Bin Trailing Air Seeder	3,500kg	9,100L		3m	
9,000L 3m 2-Bin Trailing Air Seeder	3,500kg	9,100L		4m	

SQX90 & CQX90 - 9,000L Air Seeders

BOSS 9,000L Capacity Air Seeders are feature packed machines suited to broadacre or row crop applications. BOSS Air Seeders feature a total fill bin design, have unequalled safe access with wide non-slip steps & Catwalk. Standard features also include LED worklights, double powder coat bin finish & interchangeable metering shafts. Optional 450L small seeds box available.

BOSS Air Seeders feature hydraulic drive & ISO compatible metering as standard, and can be fitted with your choice of rate controller.

	Empty Mass	Nominal Capacity	Tyre Size	Wheel Spacing	Bin Splits
9,000L 2m 2-Bin Castoring Air Seeder	4,400kg	9,100L	Std 18.4-30 (Optional 23.1x30)	2m	
9,000L 3m 2-Bin Castoring Air Seeder	4,600kg	9,100L		3m	
9,000L 3m 2-Bin Steerable Air Seeder	4,600kg	9,100L		4m	
9,000L 3m 3-Bin Steerable Air Seeder	5,000kg	9,400L		3m (4m Optional)	

SQX120 - 12,000L Air Seeders

BOSS 12,000L Air Seeders are high performance, feature packed, medium capacity Air Seeders that are suited to broadacre or row crop applications. BOSS Air Seeders feature a total fill bin design, have unequalled safe access with wide non-slip steps & Catwalk. Standard features also include LED worklights, double powder coat bin finish & interchangeable metering shafts. Optional 600L small seeds box available.

BOSS Air Seeders feature hydraulic drive & ISO compatible metering as standard, and can be fitted with your choice of rate controller.

	Empty Mass	Nominal Capacity	Tyre Size	Wheel Spacing	Bin Splits
12,000L 3m 2-Bin Steerable Air Seeder	5,300kg	121,00L	Std 25.4-32	3m (4m Optional)	
12,000L 3m 3-Bin Steerable Air Seeder	5,500kg	12,400L		3m (4m Optional)	

SQX200 - 20,000L Air Seeders

BOSS 20,000L Air Seeders are high performance, feature packed, large capacity Air Seeders that are suited to all broadacre applications. BOSS Air Seeders feature a total fill bin design, have unequalled safe access with wide non-slip steps & Catwalk. Standard features also include LED worklights, double powder coat bin finish & interchangeable metering shafts. Optional 1,000L small seeds box available.

BOSS Air Seeders feature hydraulic drive & ISO compatible metering as standard, and can be fitted with your choice of rate controller.

	Empty Mass	Nominal Capacity	Tyre Size	Wheel Spacing	Bin Splits
20,000L 3m 3-Bin Steerable Air Seeder	8,500kg	20,195L	Std 30.5-32 (Optional 710/70R38)	3m (4m Optional)	6660L 6875L 6660L 7150L 5895L 7150L

Air Seeder Options

BOSS Agriculture Air Seeders support a huge range of accessories and options including:

- 2M, 3M or 4M wheel centres
- In-bin camera kits
- Rear-pull for liquid/gas trailers
- Tail lights and blinkers
- Oversize signs
- Toolboxes

Liquid Fertiliser Compatible Air Seeders

BOSS Agriculture build the popular 12,000 Litre Air Seeder on an extended chassis with the ability to carry up to 6,000 Litres of liquid fertiliser product at the same time as the regular granular products and seed.

Stainless Steel Metering Units

Stainless Steel Metering Units offer the ultimate in corrosion protection for highly reactive fertiliser types and humid environments.

Stainless Steel Auger

The optional Stainless Steel Auger Upgrade includes stainless steel tube, flighting and hopper base, stainless bolts and stiffener strips on the hopper rubber.

GAS & LIQUID TRAILERS

The BOSS Agriculture range of Gas & Liquid Fertiliser Trailers are available in steerable quad, castoring quad and 2 wheel trailing configurations.

Different tyre sizes are available depending on the weight of product to be carried and your floatation requirements.

Tyre sizes available include:

- 400 x 24 R1 Lug Tyre
- 18.4 x 30 R1 Lug Tyre
- 23.1 x 30 R1 Lug Tyre
- 24.5 x 32 R1 Lug Tyre
- 23.1 x 26 Diamond Lug Tyre

FEATURES & SPECIFICATIONS

- ✓ BOSS Trailers are heavily constructed with all joints reinforced with pressed sections that wrap around the RHS.
- ✓ Tank mounts are bolted down so they can be moved or changed to suit different tank profiles.
- ✓ Trailers are available on 2, 3 or 4 metre centres.
- ✓ Low fill points available.
- ✓ Raven mount available.
- ✓ Hydraulic saddles incorporated into the chassis for mounting hoses or liquid lines.
- ✓ Threaded mounting blocks located on the chassis for mounting additional hardware.
- ✓ Optional hypro pump & filter mount kits

BOSS AGRICULTURE

BOSS Agriculture proudly build high quality, innovative machinery in their state of the art facility in Inverell, northern NSW.

BOSS Agriculture entered the machinery market in 2010 due to client demand, Australian farmers wanted more options in their planting equipment than was available at the time.

BOSS Agriculture have been building Air Seeders since 2014, with a strong emphasis on ease of use and ease of operation with hydraulic lift and swing augers and hydraulic opening bin lids, steep bin angles to efficiently fill to maximum capacity, and the convenience of packaging our Air Seeders with our planters, offering clients a complete seeding bar and cart package.
